Our Impact

466

Last year, we made **466 Arizona homes safer** with home inspections, repairs and modifications.

SAFE HOME

717,539

Last year, we provided **717,539 nutritious meals** to Arizonans throughout our state.

NUTRITIOUS MEALS

373,856

Last year, we provided **373,856 miles** of safe, reliable, and accessible transportation.

COMMUNITY-BASED HEALTHCARE

3,472

Last year, **3,472 people** received free, personalized care coordination.

COMMUNITY EDUCATION

87% of Americans want to grow older in their own home.

With supportive services and accessibility modifications, home can be a safe place to age.

80% of seniors in America are food insecure.

This means they often have to choose between paying for food or healthcare costs and medications.

\$470 billion of care is being provided by unpaid family caregivers each year.

With the rising costs of healthcare, home- and community-based care services will be in higher demand.

16% of Americans provide care to a loved one each year.

Family members are often thrust into the role of caregiver - and have no idea where to turn for help.
