

## Our Mission

Oakwood Creative Care (OCC) offers Day Clubs specializing in treatment beyond the traditional care model. Our INNOVATIVE research based programs are revolutionizing how care is delivered. We believe that a diagnosis does not define your life and that there is treatment beyond a pill.

Our Members often experience challenges that can be associated with the aging process like memory impairment, strokes, cancer, Parkinson's disease and Alzheimer's to name a few. We believe this shouldn't stop someone from having purpose, meaning, and a place to belong.

## Dear Friends of Oakwood Creative Care,

Wow, we all get bombarded with catalogs this time of year, don't we? Most of the time we just toss them confident in the fact that another one will appear every week until the holidays. But this catalog is different. This is the only one you will receive this holiday season and, we believe, the most important because the gifts you choose from this catalog will have an impact on our members' lives as well as their families and caregivers. Think of it as an investment catalog - investing in the future of Oakwood Creative Care and the members we serve.

There aren't very many many pages, and we've tried to be succinct so please take the time to go through and select your gift - your investment. The prices are reasonable, and the return you get for your investment... well, priceless. And...there are no shipping and handling fees!

Have a wonderful holiday season, and thank you for your support of our mission to enhance the mind, body, and spirit of adults with cognitive physical challenges.

Your Friend,  
Sherri Friend  
CEO - Oakwood Creative Care

## Oakwood Creative Care is...

- The innovative solution you have been looking for
- An affordable option in the continuum of long term care
- Day Clubs that offer purpose and meaning in your day

## The Team

Our highly professional, friendly, creative and caring staff love what they do and are always learning and challenging themselves. They each have specialized and diverse backgrounds and bring their hobbies, passions, and talents to our Day Clubs. Our Interdisciplinary team includes backgrounds of nursing, music, storytelling, artists, laughter therapists, green thumbs, yoga, carpentry, and more. THEY ARE AWESOME!!
